N.R. 37 E., M.D.B & M.

Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land it should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.

(c) Irrigation will begin about March and end about

Month.

September, of each year.

Month.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

(d) Power to be developed is _____ horse power.

(e) Works to be located _____

Give 40-acre subdivision on which works will be located, or locate by course and distance to a section corner.

(f) Point of return of water to stream _____

Describe in same manner as point of diversion.

(g) Remarks _____

DESCRIPTION OF PROPOSED WORKS

By means of driven wells; if necessary more than one and the state manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water balance will be driven at the points most convenient and practicable for the land to be irrigated. At present have two wells 6" diameter, 126 and 404 ft. respectively, discharging into a sump and then being pumped to the surface and distributed to the land by means of ditches. I figure that this present system will irrigate about 50 acres and intend to sink other wells in the future.

5. Estimated cost of works \$6000.00
6. Estimated time required to construct works 5 years
7. Remarks _____

For use of applicant.

MILTON B. JOHNSON, Applicant.
